

RIAP 177 Intro to Intelligence Studies

This survey course introduces the student to the discipline of intelligence and provides the student with an understanding of how intelligence systems function, how they fit within the policymaking systems of free societies, and how they are managed and controlled. The course will provide a theoretical overview of the intelligence, including psychology of intelligence, types of intelligence methods, tools and techniques, basic writing and briefing skills, basic data management strategies and tools and various types of intelligence used throughout the private and public sectors. 3 credits.

RIAP 178: Intel Methods & Analysis

This course introduces students to the collection and analysis techniques used by entry level analysts. Students work on a term project that incorporates data basing, collection planning, organizational and link analysis, and structured analysis techniques. Computer software programs are used to enhance that analytical product. A threaded discussion of the psychology of intelligence analysis is integrated into course material. Prerequisite: RIAP 177. 3 credits.

RIAP 213 National Security & Intel

This course is an introduction to national security decisionmaking in the United States with a special emphasis on the role of intelligence in formulating policy. Students will engage in a historical overview of national security politics and strategy since WWII and describe major institutions and processes involved in national security policymaking. The course is designed to survey significant national security problems and their changing nature in the 21st century. 3 credits.

RIAP 240: Intelligence for Business

RIAP 320: Advanced Law Enforcement Intelligence

This course will explore the theory and practical application of analytical methodologies to selected law enforcement intelligence topics. It will utilize the case studies methodology to understand the role and effect that intelligence influenced the out-come of historical events. Classroom projects will require critical thinking skills to produce an analytical intelligence product for law enforcement decision makers. Prerequisite: RIAP 276. 3 credits.

RIAP 321: Law & Ethics Law Enforcement Intelligence

The Law and Ethics of Law Enforcement Intelligence course builds upon the prerequisite introduction course of RIAP 276. The class will explore the governing laws, rules and regulations plus ethics associated with law enforcement intelligence. 3 credits.

RIAP 322: Applied Methodologies for Law Enforcement Intelligence

The Applied Methodologies for Law Enforcement Intelligence course builds upon the prerequisite introduction course of RIAP 276. The class will learn and apply advanced applied structured analytical methodologies commonly utilized in law enforcement intelligence. 3 credits.

RIAP 325: Cyber Threat Analysis

This course will introduce students to the methodology of investigation and analysis procedures associated in the application of real world cyber attacks. Students will gain knowledge of key terminology, online tools used by analysts, the development of legislation, key government agency roles, and the nature of cyber threats/attacks. 3 credits.

RIAP 360: Financial Intelligence Analysis

This course explores the theory and application of intelligence in the conduct of identifying and mitigating financial threats and crimes by governments, the private sector, and other integove.2(a)05 0 Td ()P <</MC.8(t)-8.2(e)-17(l)-8.31Tw 0.30 sn1u00.6(r)-2C 3 -0 0 3 36 I9(o)ovl-5.45(/)6.9(attach)-4.77(t) 0.037 Tw [(i 67(l)-8.k)-5.3(l)-(.5(l
